

### QB-SPACE

Designed to integrate seamlessly with its surroundings, qb-space products are fully demountable and reconfigurable modular systems, engineered to create unique environments for the office or workspace.

### RANGES

Embracing the essence of sustainability qb-space virtually eradicates the waste associated semi-permanent space management methods. qb-space provides an excellent alternative when creating privacy and collaboration spaces. Utilising a combination of simple architecture, with Glazed, Acrylic, MFC, Laminate or Fabric panels, a vast array of space permutations are possible. No pre-set modules or sizes - Working together we can design the perfect qb-space environment, fully compliant with all workplace regulations and tailored to suit your application.

Creating innovative products and concepts with great designers is QBISM's challenge. They were developed in the United Kingdom and installed worldwide by architects, companies and private users to build inspirational spaces for living, working and public areas for simply meeting in private. As of 2016, the QB brand not only stands for meeting pods within offices but also as furniture, lighting and accessories for the banking & teleconference sectors, as well as intelligent shopfitting systems and custom-tailored retail concepts.

## QB-OFFICE

You are looking at a product that some interior architects are now referencing as the most advanced, modular office system ever. The highest quality design and materials brought together to make an architectural masterpiece.

**Become a QBIST.** *Define the shape from your ideas.*

**QBIST's think inside the box.** *Choose your glazing - single or double.*

**QBIST's think outside the box.** *Add your chosen finishes.*

**QBIST's think about ALL the box.** *Realisation of all your ideas.*

Touchdown Areas

Breakout Spaces

Naturally, it's everything you'd expect : Demountable; Environmentally responsible; Reconfigurable, expandable and endlessly versatile.

But, in today's market, those are simply the minimum requirements. What sets qb-space apart from all other systems is its quality.

From the sheer strength and architectural integrity of its construction, to its shameless attention to design detail; this is a system that exudes style, finesse and technology..

**GLAZING.** *single, double, manifestations.*

**PANELS.** *mfc, glass, acrylic, laminate, fabric.*

**DOORS.** *sliding door, double door, pivot door.*

**ALUMINIUM FRAMEWORK.** *silver, black or white.*

## QB-MEET

Designed to integrate seamlessly with its surroundings, qb-meet is a freestanding, fully demountable and reconfigurable modular seating system, engineered to create unique environments for the office or workspace.

**The art of QBISM.** *Start with a blank canvas.*  
**Get creative. Become a QBIST.** *Explore fabrics and finishes.*  
**Get adventurous. Be a QBIST™** *Let your creativity lead you.*
